02/12/2023 – 03/12/2023
1st Place at IT Hackathon Organized by Fonis - "Software Solution for Solving Procrastination"

- My team and I had 12 hours to develop a software solution for the theme "Software solution for solving procrastination". We developed an online application that tracks the hours spent studying. Each day of studying is rewarded with a cute animal added to the user's collection. The idea was to collect these animals over a period of time, and then compare collections to compete and motivate each other.
- JavaScript, HTML and CSS.
